ABOUT RUSSIA

Geographically, Russia is the largest country, stretching over a vast area of eastern Europe and northern Asia. The country is popular for its unique and vibrant culture, rich natural beauty and its immense contribution to Science and Technology. The country's capital - Moscow is a bustling city with iconic landmarks such as St. Basil's Cathedral, Kremlin, Red Square, Lake Baikal, and more. It is also famous for its diverse literature, music, art and cuisine.

ABOUT PERM

Perm is a city located in the Ural region of Russia. The city is an industrial hub, with a thriving manufacturing and technology sector. During the winter season, Perm's temperature ranges between -10°C and -16°C , whereas during summers, it ranges between 15°C and 26°C . Every year, Perm attracts a large number of international students. The city has about 21 universities and over 270 programs on various subjects including medical, engineering, architecture, management and other vocational courses. The standard of living is quite high, with an affordable cost of living as compared to other cities in the country.

PERM STATE MEDICAL UNIVERSITY

Perm State Medical University is one of the oldest and biggest universities located in the Perm city of Russia.

The medical faculty of the **Perm State Medical University** was established in 1916, and later became independent in 1917. This century-old university is one of the oldest universities in Russia, and still holds the top position in the country. Perm State Medical University became a member of the European Association of Medical Schools in Europe in 1997.

The university has won the **Moscow Mayor** prize for the best campus in the region. It also won the title of “**Best Student Hostel**” at the all-Russia contest held among the various universities of Russia. The students of the university also have access to a **Culture Palace** named “**Academia**”. A wide range of cultural events and activities take place at the Culture Palace.

Each classroom at the Perm State Medical University has 10 students mentored by a lecturer and two assistant lecturers. Currently, there are around **20,000** students studying at the university out of which 8000 are from 21 countries such as India, Israel, Germany, etc.

MESSAGE FROM RECTOR

Dear Students,

Being able to provide the best education to medical aspirants from different corners of the world has been a dream come true. Seeing thousands of students striving to be their best version while pursuing their medical career, brings me everlasting joy. It is a privilege for me to help them fulfill their dreams of becoming successful in their medical career.

Perm State Medical University is one of the best medical universities in Russia providing quality educational programs to educate young medical aspirants to become doctors. The university is equipped with modern facilities and state-of-the-art infrastructures and technology to train the medical students to become great physicians, medical researchers, and excellent medical professionals. We have a team of skilled and knowledgeable faculties who educate the students, guide them throughout their academic journey, and ensure that the students get the best guidance for their theoretical practical as well as non-academic extracurricular activities.

We can provide the best support to our students to deliver them the best and comfortable environment which will help them grow academically and personally. If you are looking for the best medical university to pursue your medical career, we are here for you. We provide one of the best education facilities in the field of medicine and the medium of instruction is English for all our international students.

Perm State Medical University has been one of the leading medical universities in Russia for many decades, offering the best quality medical education to medical aspirants from different corners of the world. It is a delight to see young minds get on their journey to fulfill their dreams of becoming doctors. With hope for the future, they move forward together to build a better healthcare system with courage and dedication. I wish each student who pursues their medical education at Perm State Medical University a successful and prosperous life.

Ms. Blagonravova Anna Sergeevna
Rector, Perm State Medical University

MESSAGE FROM HEAD OF DEPARTMENT INTERNATIONAL MEDICAL EDUCATION

Dear Students,

Perm State Medical University offers the highest quality educational programs designed, to train the next generation of physicians, medical researchers and health-care professionals.

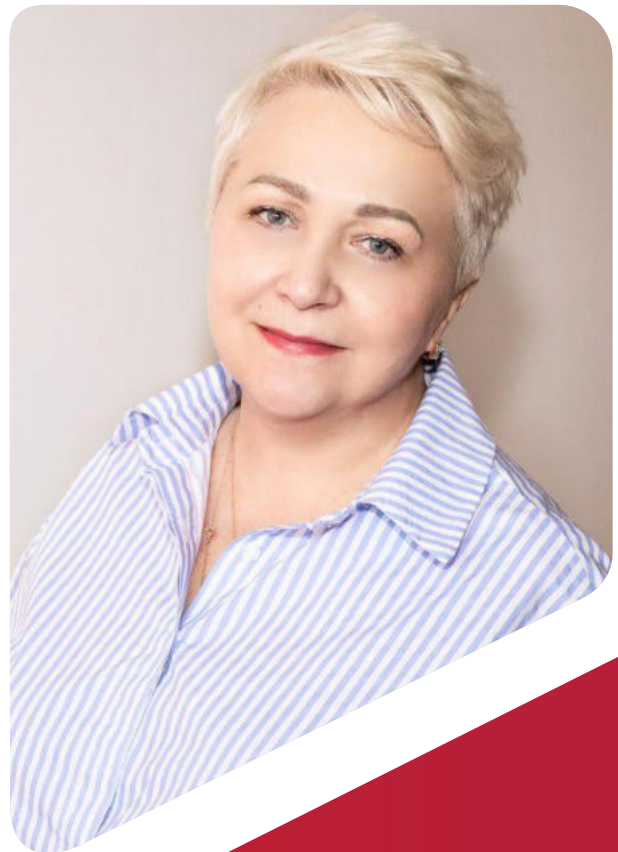

With dedicated and skilled faculty, excellent infrastructure, library facilities, museums, laboratories and skill labs, that provide hands-on experience to the students, the institution has been attracting numerous students from India as well as from many other countries of the world. The students who have graduated from this institution have been successfully practicing medicine in Malaysia, USA, UK, middle east and other European countries.

On interaction with all these young minds filled with hope and dedication coming away from their homes in India, USA, UK, Canada, Malaysia, Indonesia and other different parts of the global village, I feel a new surge of energy to even surpass my bests for their sake. The sole objective of the university is to provide the best to the students, preparing them to tackle the challenges of tomorrow so that they can emerge to be competent to handle the responsibilities and struggles in the daily life of the doctors.

Let us help you begin your medical career on the right path. If you are looking for a great medical education that offers unique programming and customized student learning, I hope that you will consider Perm State Medical University.

Ms. Yulia Albertovna Vetoshkina

Head of the department of international medical
education

Greeting the young minds every morning is my favourite thing to do. The enthusiasm they have inspires me everyday and every time. With unbounded dreams, these young students always motivate me to do my role in making those dreams come true. Today, when I look back to all my students who are living their dream life today with happiness and success, I feel immense pride in my heart. I hope each and every student joining Perm State Medical University has a successful and happy life not only in university but also after that.

MESSAGE FROM DEAN OF INTERNATIONAL STUDENTS

Dear Students,

Welcome to Perm State Medical University! As the Dean, it is my pleasure to extend a warm welcome to all new students aspiring to study at Perm State Medical University. Our university is committed to providing you with an exceptional education, fostering your personal and professional growth, and preparing you for success in the medical field.

At Perm State Medical University, you will find a supportive community of faculty, staff, and fellow students who are dedicated to helping you achieve your academic and career goals. At the university, you will receive rigorous training and hands-on experience that will prepare you to make a positive impact on the lives of others.

I encourage you to take advantage of the many opportunities available to you at our university, including research projects, clinical rotations, and extracurricular activities. By immersing yourself in all that Perm State Medical University has to offer, you will not only excel academically but also develop the skills and knowledge necessary to become a compassionate and competent healthcare professional.

Together, we will ensure that you have a rewarding and fulfilling experience at Perm State Medical University.

Ms. Yulia,
Dean of International Students

Perm State Medical University has been one of the best universities for Indian students. Every year, PSMU accepts thousands of students and helping them reach their goal to become exceptional Doctors. I wish each student who have chosen Perm State Medical University a successful and prosperous life.

MESSAGE FROM VICE-DEAN

Dear Students,

Perm State Medical University is one of the oldest and most renowned medical universities offering excellent medical education to all students including Indian medical aspirants. The university is committed to providing you with the best possible learning experience to help you in your professional as well as personal growth.

At the Perm State Medical University, we pride ourselves on our highly qualified faculty and staff who work tirelessly to ensure that the medical curriculum is up-to-date and relevant to the ever-evolving field of medicine. Our state-of-the-art facilities and cutting-edge technology also contribute to making our university one of the best in the country.

We provide every student with the best support and guidance every step of the way, whether it is academic guidance, personal counselling, or career advice. We ensure that you build confidence in your skills and knowledge through education at the university and through hard work and dedication.

The knowledge and skills that you gain at Perm State Medical University will prepare you for a rewarding career as a healthcare professional, and we are proud to have you as part of our community.

Dr. Vikas Saxena
(Vice- Dean, Perm State Medical University)

“

I am very proud of the medical education program we provide at PSMU and of our outstanding students who develop and grow into the best doctors they can be. Our graduates excel in their licensing exams and achieve great success in the match every year, and ultimately enjoy rewarding careers. In the meantime, our students are happy to be a part of Perm State Medical University, and are keen to engage and be engaged in their chosen field and in the communities they will serve.

”

GLOBAL RECOGNITIONS & MEMBERSHIPS

Perm State Medical University is nationally and internationally recognized by various organisations of international reputation like the Educational Commission for Foreign Medical Graduates (ECFMG), USA. Perm State Medical University is listed in the World Directory of Medical Schools (WDOMS).

The list doesn't end here. Perm State Medical University is also recognised by the medical councils of various countries, such as Canada, Australia, Nepal, etc. Locally, the university is accredited by the Ministry of Science & Higher Education of the Russian Federation.

PSMU fulfils the requirements laid down by the National Medical Commission under the Foreign Medical Graduate Licentiate Regulations (FMGLR), notified on November 18, 2021.

Ministry of Science & Higher Education of
the Russian Federation

National Medical Commission

FAIMER

ECFMG

Medical Council of Canada

THE CENTURY OLD LEGACY OF THE UNIVERSITY

Perm State Medical University is recognised by the Ministry of Science and Higher Education of the Russian Federation to train medical professionals for foreign countries, with highly skilled teaching staff.

Since its inception, over 50,000 doctors have graduated from Perm State Medical University. The university is a member of the Association of Medical Schools in Europe. Since 1992, the university has been listed in the State Register of Participants of Foreign Economic Relations.

Perm Medical Journal is published at PSMU. Since 2003, it has been included in the list of journals recommended for the publication of the basic scientific results of the thesis for a Doctor's degree. The journal is the oldest medical edition in Russia, and has been published since 1924.

Doctor of Ural is the oldest newspaper of Perm higher schools, published in large editions. The first edition was published in November 1931. Its main subjects are exchange of information, experience and achievements. It includes information about various events of the university, like Perm and Perm Krai, along with achievements and problems of public health.

MBBS PROGRAM AT PSMU

The general medicine/ physician program offered at Perm State Medical University is about 6 years long. During this course of study, equal focus is maintained between the theoretical and practical aspects of the curriculum.

The assessment is objective and practical for checking the implementation of the acquired learning. The pragmatic approach of learning at the university's classrooms feature in intrinsically motivating the students to work hard and perform better.

As an integral part of its medical curriculum, Communicative Russian is also taught from the first year of study itself, so that the students can effectively communicate with the patients during their clinical rotation. However, the medium of classroom interaction and examination is English.

Students, research associates and others attending the conference at the University

A bench of scholars listens to research findings of the students of Perm State Medical University

One of the halls of the university where the dissertation by the final year students is being conducted

SCIENCE & RESEARCH ACTIVITIES

Scientific authority of the university in the country and region has been constantly growing. Scientists carry out research practices in all fields of medicines. There are 11 well-known research centres in the region and far abroad formed by the university. Frequent lectures are conducted in the university for the Doctors of Medical Science. At present there are 6 working institutions of the research institutes, 4 dissertation councils in 10 specialities formed on the basis of University.

Various scientific investigations of Perm physicians have been widely inculcated into practical public health. Every year the total number of utility patents by the research centers of the university exceeds 30. Our scientists take an active part in the contests for the Russian and international grants, thus participating in the work of scientific forums in Russia.

Rector, PSMU giving away certificate of appreciation to an Indian student

INTERNATIONAL PARTICIPATIONS

Perm State Medical University has signed 18 Agreements of Cooperation with the universities of Italy, Germany, France, the USA, Israel, Kazakhstan, and several other international organisations, such as the International Federation of Medical Students' Associations (IFMSA).

In the frame of these agreements, educational and research projects are realized. The university stresses the academic mobility of the students, staff, and young researchers. Every year, around 30 foreign professors give lectures at the university, consult patients, and explain new technologies. They regularly train at foreign university hospitals during summer break and organize study courses for foreign students.

Simulation training center at PSMU provides hands-on experience and practical medical insights for students.

Equipped with advanced medical equipment to enhance students' diagnostic and clinical skills

Resourceful Library enables students to understand medical complexities through research & case studies

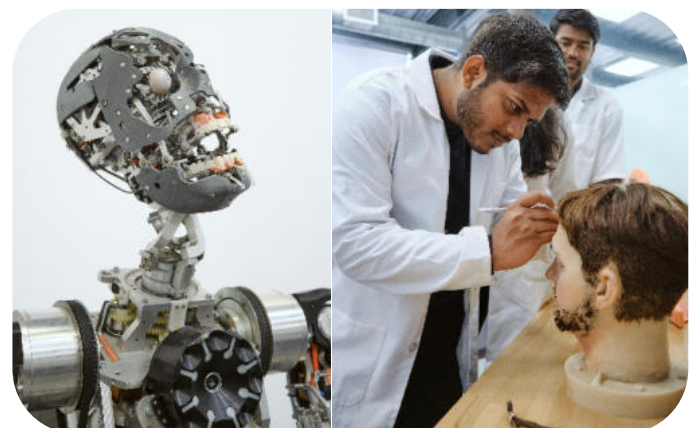

Highly advanced technology used in PSMU labs

EDUCATIONAL INFRASTRUCTURE

The classrooms, laboratories, and the library are well equipped with all the facilities a student might need to excel in their studies. The classrooms have a healthy student ratio of 7:1 between the students and the teachers. The laboratories are equipped with the most advanced equipment in good numbers, and the library features a large collection of reference books in the English language, with online access as well.

A staff of over 500 highly qualified lecturers and Candidates of Medical Sciences are there at the university. The staff include the Laureate of the State Prize, Honoured Scientist of Russia, Honoured Worker of Higher School, honoured doctors of Russia, etc., belonging to the Perm city. The fellows of state scientific scholarships to outstanding scientists and talented young scientists of Russia, fellows of the Perm region, are also a part of the university.

PROMOBOT TRAINING

Students of Perm State Medical University are trained in a modern robotics-assisted learning environment using Promobot, an advanced humanoid robot designed for educational and medical simulation. This innovative technology allows students to practice clinical communication, patient interaction, and diagnostic decision-making in realistic medical scenarios.

Promobot creates a safe and interactive learning environment where students can develop essential clinical skills before working with real patients. Through simulated consultations, medical interviews, and problem-solving exercises, students gain confidence and improve their practical knowledge.

This robotics-based training enhances the university's simulation learning system and helps MBBS students develop critical thinking, communication, and patient-care skills.

A comfortable and secure accommodations for boys

The Hostel Vicinity features dedicated meeting rooms for students

Safe and secure accommodation for girls at PSMU

STUDENTS ACCOMMODATIONS

The hostel premises are just 15 minutes walking distance from the main campus of the Perm State Medical University. The students also have the option to choose their roommate from their hometown as well.

Currently, there are 5 hostels of the university with attached study rooms, recreation rooms, gymnasium, laundry, kitchen, etc. All the rooms in the hostels are equipped with WiFi connectivity so that students can access the internet with ease.

Separate Hostels For Boys and Girls:

Perm State Medical University does its best to create comfortable living conditions for its International students. Therefore, it offers separate accommodation facilities for both boys and girls.

SIGNING CEREMONY WITH RUS EDUCATION

In the presence of all of the esteemed guests, an agreement of cooperation between Perm State Medical University and Rus Education was signed. Through the signing of this Agreement, Indian students will be able to undergo practical training directly in a healthcare environment that meets the norms and standards of organizing work in the healthcare industry in India.

A special invitation was extended to Mr. Subrata Das, Minister of Education of the Embassy of the Republic of India in the Russian Federation, and Professor S.K. Washim, Chairman of Rus Education.

HOME-AWAY- FROM-HOME FOR INDIAN STUDENTS

With thousands of the students joining Perm State Medical University, India has become a close associate. Therefore, the university often celebrates the major cultural events and festivals of India.

During these celebrations along with the Indian students, other international and Russian students also enthusiastically participated in various events.

Russian Education Fair

The fair served as a platform where students and parents connected with representatives from leading Russian universities. Students and parents who joined the event, predominantly aspiring for admission to MBBS and other educational programs in Russia, gathered to have their inquiries regarding universities and the admission process addressed by the delegates. Prof. Oseian Daiana, Teacher of Russian as a Foreign Language of Perm State Medical University and Prof. Tretiakova Lullia, Assistant Professor of the Polyclinic Therapy Department of Perm State Medical University, shared their time delivering their queries and assisted the students during the fair. A significant crowd of students and parents eager to explore opportunities for various courses in Russia met with the representative and even enrolled for MBBS at the university.

Rector's Visit to Amrita Institute of Medical Sciences, India

As a component of the Indo-Russian Education Summit 2024, on April 13th, 2024, the respected Rector of Perm State Medical University, Prof. Blagonravova Anna Sergeevna, alongside the esteemed Deputy Minister of Health of the Russian Federation, Mrs. Tatiana Semenova, undertook a noteworthy visit to Amrita Institute of Medical Sciences in India. This visit was intended to investigate and supervise potential avenues for enhancing collaboration in medical education and research between Russia and India.

SHIVAJI MAHARAJ JAYANTI 2025

In February 2025, Perm State Medical University celebrated Chhatrapati Shivaji Maharaj Jayanti, honoring the legacy of a great warrior and leader who stands as the symbol of true valor and courage. The event was graced by the presence of esteemed faculty members, including Dr. Vikas Saxena, Deputy Dean; Ms Yulia Tretyakova, Dean of the International Department; and Ms Borovikh Iana, Deputy Dean.

The students and faculty of the university participated in various activities, including cultural performances, and shared inspiring stories and reflections on Shivaji Maharaj's incredible journey. This celebration not only highlighted our rich cultural heritage but also reinforced the values of unity and strength that continue to inspire our community.

Silver Medal Won By The Badminton Team

The badminton team at the Perm State Medical University showcased exceptional talent and sportsmanship as they won a silver medal in the State Championship held in Nizhny Novgorod.

The team has also secured their spot in the upcoming National Championship that will be held in Volgograd this April. The team's hard work, perseverance, and sportsmanship have made us incredibly proud.

As they prepare for the next stage of competition, we look forward to their continued success and wish them the best of luck in the National Championship.

Mahashivratri 2025

The students and faculty embraced the spirit of faith and devotion as they came together to celebrate the festival of Mahashivaratri with great enthusiasm. The event became a beautiful blend of unity and spirituality, allowing the Indian students to stay rooted in their culture while pursuing MBBS at PSMU.

Adding to the vibrancy of the celebration, Indian students and esteemed faculty members participated wholeheartedly, making the event even more special.

The celebration emphasized the importance of staying connected to one's spiritual beliefs and that traditions transcend geographical boundaries, turning every celebration into a global experience.

THRILLING SPORTS ACTIVITIES

At Perm State Medical University, we focus on the holistic development of the learners not only in the classrooms but also outside the classrooms. The university has several facilities for encouraging the student to participate in these activities. The university has open fields for sports such as soccer, cricket, and baseball, golf, etc as well as the indoor games like basketball, volleyball, badminton, etc. The students from the university participate in various sports events all-around the year. The students also participate in several inter-university music and advanced competitions as well.

RPL & PERMATHON at PSMU

Sports activities bring together the spirit of sportsmanship in an individual. It allows students to showcase their skills, teamwork, and determination as they thrive through a series of sports events. Events like the Russian Premier League and PERMATHON, promote fitness, endurance, and camaraderie. At Perm State Medical University, we nurture not just future doctors but well-rounded individuals ready to take on challenges in both the medical profession and life. Through these events, students develop leadership, resilience, and a sense of discipline, enhancing their overall personal and professional growth.

On-campus FMGE coaching classes ensure Indian students gain clarity and confidence for the exam

COACHING FOR LICENSING EXAMINATION

Perm State Medical University believes in providing full assistance to its students while making it hassle-free for them to successfully achieve their dreams of becoming doctors.

In collaboration with Rus Education, PSMU provides FMGE coaching to its students at the university campus. The university invites India's renowned doctors and faculty members who give their insights on the FMGE screening test.

CONVOCATION CEREMONY

Each year, Perm State Medical University confers over 500 degrees to its graduating students. This is the testament to their hard work, dedication and perseverance. It's a memorable occasion for all the students as they step into their medical career carrying the memories, knowledge, skills and experiences gained during their academic journey.

The grand convocation ceremony witnesses the presence of esteemed dignitaries such as the Rector, faculty members, as well as the parents of the graduating students who have been a support system throughout their academic journey.

VIPUSK Convocation Ceremony

Rus Education orchestrated a magnificent graduation ceremony, "Vipusk PSMU 2024," celebrating the accomplishments of our graduating class after six years of unwavering dedication and hard work.

Esteemed guests who attended the event congratulated the students for their outstanding achievements as a symbol of their commitment and years of hard work and further encouraged the students for their FMGE preparations. Vipusk PSMU 2024 was a grand celebration, marking the graduates' transition into their professional medical careers.

FRESHER'S PARTY

"Perm State Medical University warmly welcomes first-year students to the university with a grand celebration. The event showcased PSMU staff members and students from diverse backgrounds, all seizing the opportunity to express their talents and interests through activities such as singing and dancing.

The festive celebration was brimming with music, dance, laughter, and numerous memories that will last a lifetime for the students. It culminated as the students took center stage, relishing in moments of joy as they embarked on their MBBS journey at the university."

VISIT OF OFFICIALS TO THE UNIVERSITY

Mr. Subrato Das, Minister Education & Community Welfare, Embassy of India, Moscow visited the campus of Perm State Medical University, earlier in the year of 2022. He visited the laboratory of the university and witnessed the simulation learning mechanism used in them for the training of the students. The guests were impressed with the use of non-conventional strategies to assist learning among the students.

Air Marshal Dr Pawan Kapoor (Retd.) has also visited the university and interacted with the Indian students in person. In both the visits. Dr Kappor visited the various departments and laboratories associated with the university. The students expressed their gratitude and happiness.

RECTOR'S VISIT TO INDIA

Prof. Blagonravova Anna Sergeevna, Rector of Perm State Medical University and Ms. Bocharova Anna Mikhailovna, Pro-Rector of Perm State Medical University visited India in May 2023. During their visit, they actively engaged with various medical institutions to reinforce international collaboration. Notably, they signed significant cooperation agreements with institutions such as the Russian House in New Delhi and Santosh Medical College, aiming to strengthen the bonds between PSMU and Indian medical establishments. These agreements focus on enhancing knowledge exchange and fostering international cooperation in medical education.

EXPLORING PERM CITY

Perm offers a perfect blend of culture, history and modernity. The liveliness of the city creates a good experience for anyone visiting it. The city is always bustling with people visiting theatres, museums, and cafes, which gives it a high-spirited atmosphere. Furthermore, the city's warm hospitality to its visitors and students makes them feel welcomed.

At Perm State Medical University, we believe that students must take some time to explore the city and learn about its culture, as they are going to call it their home for the next 6 years of their lives. To facilitate this, the university regularly organizes excursions and visits to various locations in the city.

Being a part of Perm State Medical University's Batch of 2024 has been an incredible journey. The university provided me with a strong foundation in medical education, hands-on clinical experience, and international exposure. The dedicated faculty and state-of-the-art facilities helped me develop the skills and confidence needed to excel in my medical career. I am proud to be a graduate of PSMU and highly recommend it to future medical aspirants.

Dr. Subodh Kulkarni

Graduating as part of PSMU's Batch of 2024 has been an honor. The university's rigorous academic curriculum, practical training, and research opportunities have shaped me into a competent and confident doctor. The diverse student community and experienced professors made my learning experience enriching and memorable. PSMU has prepared me well for my future in medicine.

Dr. Snehdeep Kaur

Perm State Medical University has been instrumental in shaping my medical career. As a proud graduate of the Batch of 2024, I am grateful for the extensive clinical exposure, supportive faculty, and advanced medical training I received. The knowledge and experience gained here have given me the confidence to step into the medical field with competence and compassion. I highly recommend PSMU to aspiring doctors.

Dr. Sarthak Dwivedi

Being a part of Perm State Medical University's Batch of 2024 has been a transformative experience. The university's comprehensive medical curriculum, hands-on patient care training, and expert faculty have equipped me with the knowledge and skills to pursue my passion for medicine. The supportive learning environment and international exposure have prepared me to take on global medical challenges with confidence. I am proud to be a graduate of PSMU.
